

To Paul and Sheri and all the crew at Montgomery Cabinetry- Thank you very much for the kitchen remodel. It looks amazing and I love it! I have gone from 40 year old cabinets and yellow Formica counters to beautiful wood cabinets and solid surface counters. I even ripped out the old linoleum and uncovered the original terrazzo floors. That are in the house. The color scheme in the terrazzo matched the cabinets and drawer hardware perfectly. I would highly recommend Montgomery Cabinetry to anyone and everyone who wants quality work done in a timely manner and on budget. The crew showed up on time, every time and the interruption and mess were kept to a minimum. If you want it done right, call Montgomery Cabinetry. Thank you all again for the great work. I love it.
